Things that you should know about me

(Use this section to describe your background and the products you've created.)

My projects

(Project 1 Name)

- Include a logo or visual, if available...

(Project 2 Name)

- Include a logo or visual, if available...

Project 1: What is the problem/challenge?

(Why did you create this project? Explain the problem and goal that you set out to solve with your product. Be sure to include the target audience as well as a brief explanation of their pain points.)

Project 1: What was your design process?

(Give an outline of the decisions and steps you used to design the product. Include sketches, paper wireframes, digital wireframes, prototypes, and mockups of your design to show every step of the design. You may include your research, design philosophy and rationale.)

Project 1: The final project

(Display your final product. Be sure to include graphics as well as descriptions to explain your product.)

Project 1: The impact

(Explain the impact your design had on the problem you intended to solve and any next steps you may have taken Include data that supports your claims.)

Project 1: What did you learn? Next Steps?

(Describe the next steps you took after creating your product.)

Project 2: What was your design process?

(Give an outline of the decisions and steps you used to design the product. Include sketches, paper wireframes, digital wireframes, prototypes, and mockups of your design to show every step of the design. You may include your research, design philosophy and rationale.)

Project 2: The final project

(Display your final product. Be sure to include graphics as well as descriptions to explain your product.)

Project 2: The impact

(Explain the impact your design had on the problem you intended to solve and any next steps you may have taken Include data that supports your claims.)

Project 2: What did you learn? Next Steps?

(Describe the next steps you took after creating your product.)

Key Takeaways

(Add any key points you want to leave your audience with.)

Questions

(Answer any FAQs that you didn't cover in your presentation. Be sure to take questions from your audience.)

Thank you!
